There are no dates/times listed for this event

As a prelude to Earth Day, ArtEco Gallery is examining and celebrating in equal measure the four elements that make up the world. Artists Mat Chivers, Sidsel Christensen, Hyojun Hyun, Kyounghee Noh and Lise Wulff will, through their work, offer up multiple perspectives of nature.

Open your mind to the vastness of the elements in a series of videos, drawings and evocative paintings exploring the purity of nature, the symmetry in living things and other musings.

The four elements have come to symbolise everything from different facets of the cosmos to alchemical experiments, personalities and even zodiac signs. This exhibition will aim to tackle and bring new debate to a topic which has long since fascinated mankind.

ArtEco Gallery Ltd, 533 Old York Road,
Wandsworth, London SW18 1TG

Times: 11.00am - 6.00pm

Prices: Free
